

Sycamore Education User Access Agreement

Sycamore Education is an integrated web-based student information system, which can be accessed from any computer or mobile device with an Internet connection. Parents/guardians can access their student's academic progress, attendance, discipline, schedule and other pertinent information. Information for your student(s) is available through a safe and secure family user name and password log in.

Sycamore Education Policy:

Sycamore Education program is for the use of St. Bonaventure Catholic School parents/guardians and their respective student(s) enrolled in the St. Bonaventure Catholic School. This access will apply to all families and students.

It is the responsibility of each St. Bonaventure Catholic School parent/guardian to utilize and access their respective student's Sycamore Education information on a regular and consistent basis. Doing so will keep you up-to-date with respective student's progress.

Each teacher's data input will be maintained within a two week posting cycle for current units of study. Long-term projects and absentee work will take longer to grade. It is recommended that students wait until graded assignments are returned in order to review the assignment with their parents. Questions about your student's progress should be directed to the appropriate subject area teacher. Please follow the communication guidelines as stated in the St. Bonaventure Catholic School student parent handbook.

All parents and students are expected to be responsible and respectful users of the Sycamore Education program. If there are any unacceptable uses or sharing of passwords outside of the family, a mandatory parent conference will be scheduled. Cooperative and responsible users retain the right to continued access to Sycamore Education.
